ABOUT US..

PS ASSOCIATES is one of the most dynamic Information Technology Company in India. We are currently providing software solutions, development and consultancy services to our clients in India.

Since its inception in 1998, **PS ASSOCIATES** has undergone a phenomenal rate of growth, establishing an enviable reputation for delivering professional and optimal quality solutions at competitive rates. **PS ASSOCIATES** aims to be the Indian Software Company of choice - it is geared to deliver a competitive edge through cost and quality advantages. Exploiting state-of-the-art technologies and skills, we have delivered highly reliable and robust solutions on time and at the right price.

PS Associates engaged in providing total solution in the areas of information Technology all over the globe. PS Associates is an integrated computer company specialized in Banking Solutions. It has successfully provided total Banking solution to the Apex Bank in Madhya Pradesh, Chhattisgarh and District Central Co-operative Banks in Madhya Pradesh, Chhattisgarh for their Head Office & Branches.

MISSION, VISION & VALUES

Vision:- "We aspire to be the premier provider of software applications & services globally with excellent quality & cost effectiveness and with a focus on customer & organizational growth". **Mission:-** "To attain leadership in IT services by developing and providing high end technology solutions through continuous innovations, customer satisfaction & value added services."

Values:- We are committed for cost-effective Solutions with Quality Products and Services to the Organizations irrespective of their size and location.

Our goal is to get world-wide recognition in Information Technology by providing the "Solutions for a lifetime" and "Solutions that works" which acquire high customer appreciation through Quality Products and Quality Service by which strengthens our market share.

We believe our people are the most important asset and resource to create and ensure an environment of continuous learning.

We emphasize on focusing on growing technology trends backed by a superior Research and Development on a continuous basis.

QU&LITY POLICY

PS Associates is committed to total Quality Assurance. For us, Quality represents all the dimensions of products and services, performance, features, reliability, durability, serviceability and aesthetics.

At **PS Associates**, Quality and Development Processes are two inseparable entities. We have a Total Quality Pyramid system in place, which comprises of the Project Team, the Quality Assurance Team and the Management. Software development being highly complex in nature, we believe that quality is better assured through continuous monitoring during the entire project execution cycle.

PS Associates is achieved by integration of checks & balances at each critical stage of the System Development Life Cycle (SDLC). This results in a level of transparency that highlights discrepancies between the software produced and the requirements.

OPTIMAL QUALITY ASSURANCE:-Processes and Methods - successful integration of Quality Assurance processes with development processes critically depends on roles of all involved in a software project. Our integrated in-house methodologies - procedures, supporting tools and standards - ensure structured and coordinated management and execution of projects which ensure that all concerned are aware of their responsibilities and duties. Verification and Validation - Each stage of software project life cyclesystem requirement, analysis, design and coding is closely monitored, validated and verified by a Quality Assurance team.

PS ASSOCIATES Provides a wide range of IT services to both its clients and alliance partners. It has the required development facilities and infrastructure combined with quality assurance processes to ensure timely delivery of high quality and low maintenance software solutions.

PS ASSOCIATES is focused on providing single point Total Business Solutions. We have a track record of delivering custom designed applications and systems to support administrative, management and commercial activities.
